DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-32, drawn to a response to an emergency situation, classified in class 379, subclass 37.
 - II. Claims 33-71, drawn to provide medical advice from a station, classified in class 379, subclass 202.01.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are directed to related service provider. The related inventions are distinct if the (1) the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect; (2) the inventions do not overlap in scope, i.e., are mutually exclusive; and (3) the inventions as claimed are not obvious variants. See MPEP § 806.05(j). In the instant case, the inventions as claimed drawn to the system is for communicating with a plurality of emergency response persons and to a system for providing medical advice from a remote location. Furthermore, the inventions as claimed do not encompass overlapping subject matter and there is nothing of record to show them to be obvious variants.
